

ACHIEVE TIER 1 FLOW-THROUGH STATUS

Creating Control For Canada's Recreational Cannabis Supply Chain

*Designed by OCS, FLOW creates connectivity between licensed producers, retailers and end consumers. With **Legacy**, Licensed Producers can ship more SKU's to retail stores, provide faster inventory turns, and lower inventory overhead & pickup costs. Most importantly, we can help Licensed Producers achieve **Tier 1 Status**.*

CANADIAN RECREATIONAL CANNABIS SUPPLY CHAIN

LEGACY SUPPLY CHAIN: THE ONLY END-TO-END SOLUTION FOR THE PROVINCE OF ONTARIO

SOLVING LICENSED PRODUCER CHALLENGES

An experienced 3PL is the key to staying in control when dealing with the dynamic challenges of highly regulated industries.

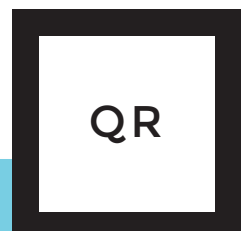

- **Safeguarding of Physical Product Integrity:** High security, temperature controlled vehicles & facilities.
- **Supply Chain Capital Requirements:** Existing assets and infrastructure for end-to-end service without costly investment.
- **Special Handling & Regulatory Requirements:** Licensed provider and experienced operator of the largest recreational cannabis supply chain in the world.
- **Maintaining Product Visibility:** Sophisticated supply chain tracking technology provides 24/7 end-to-end visibility.
- **Transportation & Distribution Cost Control:** Leveraging economies of scale & routing optimization to keep costs low.
- **Increasing Speed to Market:** Reduce time and distance requirements into Ontario's Hub DC.
- **Brand Differentiation:** Be in more stores with more SKU's, showcasing your product and building deeper brand connectivity.
