

ACHIEVE TIER 1 FLOW STATUS

The Province of Ontario's FLOW model creates connectivity between licensed producers, retailers and end consumers. With **Legacy**, Licensed Producers can ship more SKU's to retail stores faster and with lower logistics costs. Most importantly, we can help Licensed Producers achieve **Tier 1 Status**.

CANADIAN CANNABIS SUPPLY CHAIN

LEGACY SUPPLY CHAIN: THE ONLY END-TO-END SOLUTION FOR THE PROVINCE OF ONTARIO

SOLVING LICENSED PRODUCER CHALLENGES

As the operator of the world's largest cannabis supply chain - we create control and a platform to increase market share.

- **Safeguarding of Physical Product Integrity:** High security distribution infrastructure, temperature controlled delivery
- **Supply Chain Capital Outlay:** Leverage our turn-key infrastructure for end-to-end service without capital investment
- **Maximize Recreational and Medical Sales Channels:** Single source provider for all wholesale and direct-to-consumer needs
- **Increasing Speed to Market:** Reduce time and distance requirements into Ontario's Hub DC
- **Regulatory Requirements:** Sophisticated inventory systems enable lot & serial number control, excise tax management & more
- **Maintaining Product Visibility:** Customizable supply chain tracking provides end-to-end inventory & delivery visibility
- **Transportation & Distribution Cost Control:** Leveraging economies of scale & routing optimization to keep costs in check
- **Brand Differentiation:** Be in more stores with more SKU's, showcasing your product and building deeper brand connectivity
